FOREWORD

At this time I wish to thank my friends and customers for the business given me last season. And I also wish to acknowledge the many unsolicited letters of appreciation which I received. It is gratifying to know that the quality of my bulbs as well as the service rendered, met with approval. These expressions of good will are appreciated. And it is my intention to merit continued support by supplying products of SUPERIOR QUALITY, accompanied by courteous and efficient service.

This modest price list replaces my usual illustrated book. And every effort toward economy has been made in its preparation. This has enabled me to offer the very best value obtainable at exceptionally reasonable prices. And the more recent introductions, generally quoted at high prices, are very moderately priced. So my customers may now enjoy the pleasure of growing the real "Aristocrats of Glad-dom" without the least apprehension of extravagance.

Bulbs are listed in two sizes: large, which are 1¼ inches and larger in size, and medium, which are ¾ inch to 1 inch in size. Bulblets are also listed. The 1¼" bulbs will produce excellent large blooms that develop earlier than those grown from smaller corms. The ¾" size will bloom but the flowers will be smaller and will open later than those from large bulbs. Bulblets will not ordinarily bloom the first season. These are offered to enable customers to obtain stocks of varieties at a minimum.

My offerings are again classified under their recognized types, i. e., the Grandiflorus, the Primulinus, and the Primulinus-Grandiflorus. And after the name of each variety is stated in abbreviations, its type. The Grandiflorus type comprises the large flowered sorts with widely opened flowers produced on heavy, thick stems. To the Primulinus type belong the smaller flowered varieties, of extremely delicate colorings produced on slender wiry stems. The Primulinus-Grandiflorus type combines the large size and dignity of the Grandiflorus with the graceful growth and beauty of the Primulinus.

Prices quoted are for retail orders. If bulbs are desired in quantity, advise me and I shall quote quantity prices. Should varieties be required that do not appear in the following list, advise me as to names, bulb sizes, etc., and I shall be glad to secure them for you. And if you use bulbs in other sizes than those quoted, prices may be arranged by correspondence.

MY GUARANTEE

I guarantee my bulbs to be fully up to size, free from disease and Gladiolus Thrips. Upon receiving your order, open and inspect it. If the merchandise is not exactly as represented, return it at once and your money will be cheerfully refunded. However, I do not assume responsibility for the resultant crop of flowers or bulbs, for the soil, cultural and weather conditions are wholly beyond my control. And I shall not be held liable for any amount greater than the sum paid for the order.

Five Bulbs May Be Purchased for One-half the Price of Ten

STANDARD COLLECTION. This is a mixture of commercial varieties and the accidental "spills" that happen occasionally. As there are thirty different varieties represented in one hundred bulbs of this assortment, it will produce flowers of an excellent variety of types, sizes and colors. The separate varieties are not labeled. Blooming size bulbs 1 inch and larger in size, doz., 25c; 50 for \$1.00; 100 for \$1.75.

PREFERRED COLLECTION. A special assortment made up of varieties that are contained in this price sheet. This collection is ideal for the many customers who desire the best varieties but who do not care to keep the separate colors labeled. There are over fifty different varieties represented in each unit of one hundred bulbs. There are some excellent exhibition and commercial varieties as well as many of the real desirable novelties. You cannot purchase any better value anywhere in the country. If you desire to have a particular color prominent in your collection, mention this fact when ordering and I shall make up the assortment so that your favorite color will predominate in your planting at blooming time. The separate varieties are not labeled. Blooming size bulbs 1 inch and larger in size, doz., 50c; 25 for \$1.00; 50 for \$1.75; 100 for \$3.00.

TERMS OF SALE

EXTRA BULBS—You may select additional to your order, BULBS of your own choice as follows: On orders from \$2.00 to \$5.00 select bulbs to the value of 10% of your order. From \$5.00 to \$25.00 select 15%; from \$25.00 to \$50.00 select 20%; and above \$50.00 select 25%. These extra bulbs are not given on **SPECIAL COLLECTIONS**.

Get your friends and neighbors to combine their orders with yours and send it as one order. The total amount, being greater than that of a single order, more extra bulbs will be available which can be divided with your friends.

VARIETIES IN THIS LIST ARE OFFERED SUBJECT TO PRIOR SALE and quotations are for cash with order. However, 25% payment with order will reserve for delivery until April 15th, balance to be paid before shipment or by C. O. D.

It is advisable to name a second choice in your order, so if the first cannot be had, your second selection may be supplied. I do not substitute, but will return your money if sold out of a variety, unless advised otherwise. Bulbs are of the best quality and free from disease and insects. I use great care to prevent mixtures, for it is my intention to keep each variety **TRUE TO NAME**. However, should any error occur, advise me as soon as it is discovered and the matter will be promptly and cheerfully adjusted to your complete satisfaction.

All orders will be sent postpaid, except C. O. D. and quantity shipments, which will travel at customer's expense. And full cultural directions will accompany each order. The bulbs will be packed and delivered for transportation with the greatest care, so I cannot assume the responsibility for damage during transit. In any such instance, a claim should be made to the carrier.

Remit by Postal Money Order, Bank Draft, or Certified Check. If your order comes from outside the United States, please remit by draft drawn on a New York Bank or by an International Order made out in American Money. **POSTAGE STAMPS CANNOT BE ACCEPTED AS CASH.**

PLEASE DO NOT SEND AN ORDER FOR LESS THAN \$1.00. I appreciate small orders, but on those for less than the above amount I lose money.

WOOD LABELS

Wood labels are indispensable to gardeners who keep accurate records of their plantings. Pot labels are useful in seed flats, seed beds, or flower pots. Wired labels are valuable for tagging seedlings and rogues, or to label individual plants, flowers or shrubs. Each type of label is made in two styles, plain and painted. The painted labels have one side painted to receive the notations, etc., which may be made with waterproof ink or with a soft lead pencil.

GARDEN STAKES

These are approximately $\frac{7}{16}$ " thick, $1\frac{1}{4}$ " wide, and 15" long. Each stake is dipped in the best grade of white paint. I use these stakes in my commercial plantings and have found them very satisfactory. The desired notations are made in the paint with a soft lead pencil and will be legible for several years. These stakes are useful to mark the rows of garden plantings, or to maintain the identity of large perennial border plants, shrubs, etc. They are most attractive and add an atmosphere of order and dignity to plantings in which they are used.

50 sold at 100 rate—500 at 1,000 rate. Labels in dozen quantities prepaid. Larger quantities are not prepaid. And garden stakes are not prepaid for any quantity.

DELPHINIUMS

The plants offered will produce gorgeous single and double flowers of light and dark shades of blue, purple, violet, etc. Set the plants in rich, deeply prepared, well-drained soil in full sunlight. After the first blooms have gone, cut off the old flower stems about three inches above the soil and a second growth of flowers will develop. Strong two year old plants 50c each, \$5.00 per dozen. Seedling plants, 10c each, \$1.00 per dozen, \$6.00 per hundred. Six plants at the dozen rate and 50 at the hundred rate. These plants will be sent prepaid.
